Reform Restore Respect launched its community-based project - "I Didn't Know That!" - in March 2012 after the charity's incorporation in February 2012. In response to feedback from Mid-Kent College Campus at City Way and Maidstone, in 2008 a Lecturer in Decorative Occupations wrote -

"As far as I am concerned if these guys come in and help just one, then it's one life that we have saved from going down the wrong road".

Another Instructor for Wood Occupation wrote -

"I thought that the prison talks were very good, very realistic and worthwhile for the students. My class felt that the prisoners told the true story and made the idea of prison not a nice place to end up, a real revelation!"

In addition to the impact of the above workshop in 2008, having previously seen a very effective workshop in a young offender unit by an organisation called Outside Chance in 2002, I decided to develop my own early intervention strategy - "I Didn't Know That!" - an interactive and diversionary project delivered in Kent and Medway schools, colleges, pupil referral units, youth centres and community groups.

Early intervention approaches are notoriously difficult to measure and quantify, regardless of their impact, since they are based on the planting of ideas, different ways of thinking, alternative and credible approaches to youth-related problems such as negative peer pressure, self worth and self-image, etc. Indeed, we were delighted to see the work of Reform Restore Respect nationally recognised in October 2013 through our CEO and Presenter, Francis Osei -Appiah, winning the publicly-voted, first ever 'No Offence!' National Inspirational Award for the charity's work with young people. The charity subsequently won another award in November 2013, being locally voted by the people of Kent for the Heart of the Community Award 2013.

At the time of writing, the 2013-2014 school year saw our cumulative total of Kent workshop attendees pass the **7,000** milestone in just 2 years, a commendable effort for a small, one man organisation. To date, **7,423** young people have seen our programme over the period February 2012 to July 2014. We closed the 2013-2014 school year having seen **2,265** young people in 29 workshops as well as 36 sessions of 1-2-1 mentoring outreach work commissioned by Sevenoaks District Community Safety Partnership and New School at Westheath. This is down slightly on our 2012-2013 total of **5,000+** workshop attendees due to our undertaking a budget restructure earlier this year. It was decided by the trustees of Reform Restore Respect that we abandon the original format of having a full-time employment post for our CEO and Presenter as it emerged from our research that a full-time model, within a limited geographical area of operation, was unlikely that Reform Restore Respect would survive on a full-time model with the current fierce financial climate with funders increasingly moving towards a more 'hard outcomes' driven focus and funding streams becoming more difficult to access. We believed that Reform Restore Respect might struggle in future years to secure larger and sustainable funding opportunities and it was in the best interests of Francis Osei-Appiah to maintain his existing flexible contract with his existing employer whilst freeing himself to follow a part-time model of 2 days per week delivering the Reform Restore Respect programme to **2,000** young people each year.

We have collaborated and forged partnerships with The New School at Westheath in Sevenoaks. As you may know, West Heath was the school at which Lady Diana, later to become the Princess of Wales, spent what she described as the happiest days of her life. Coincidentally, the school was taken into receivership the day after she and Dodi Fayed so tragically died. Thanks to the generosity of Mohamed Al Fayed, it is a living memorial to them both. New School at Westheath commissioned us to carry out some of their outreach work, offering 1-2-1 mentoring services to some of their pupils during the 2013-2014 school year. Due to the success of our collaborative working relationship, they have commissioned us yet again for the 2014-2015 school year. Similarly, we have also formed a strong partnership with Sevenoaks District Community Safety Partnership.

Our workshops support the work of the criminal justice system, including police, probation officers, youth offending teams, social workers, school teachers and other voluntary organisations in the community. Our workshop is suitable for delivery in PSHCE and Citizenship lessons for primary school Year 6 pupils before their 'transition' to secondary schools and Year 7 to 11 in secondary schools as well as sixth forms and colleges. The workshop can also be used as the basis for extra-curricular activities, focus days and multi agency 'carousel' days.

In addition, we have increased the charity's Board of Trustees from 3 to 5. Police Constable John Brooker from Tonbridge Police Station and Dr Peter Green joined our board in 2013. We plan to increase our Board of Trustees to a total of 7 in due course.

"I DIDN'T KNOW THAT!" - OBSERVATIONS AND THE FUTURE

Our 2 year anti-crime initiative drew to a close in July 2014 for the school summer break, having been seen by **7,423** young people across Kent and the South East. Our programme resumed again in September 2014. Whilst the project will continue to grow across Kent, it will do so in a more localised form. Reform Restore Respect has been successful in securing small, localised funding, considerably helped by the overwhelmingly positive responses which the charity has solicited from teaching staff and, more importantly, from the young people who have attended our workshops.

We have been very grateful to a number of local people, funders and professionals that have supported us with physical help or donations. In particular The Tudor Trust, who are funding more than 50% of our core cost for 5 years. Without their input, we could not have achieved what we have today. Also, Kent Community Foundation Overstone Fund's generous one year grant. We have been very fortunate to receive funding and donations from Sevenoaks District Community Safety Partnership, the Snodland Partnership, The Malling School, the Rotary Club in Malling, Sarah Billiald, former Kent Criminal Justice Board Chair, Searching for Pie music band and fundraising efforts by Dan Dawe, Megan King, Arlo Holman and Amie Wilkinson in skydiving.

We will continue to deliver our hard-hitting, anti-crime awareness workshops in schools and community groups to explain the often life long consequences of receiving a police caution, a criminal record and a prison term. We will provide simple, easy to understand information around young people's rights and responsibilities with regard to the law surrounding youth crime. Workshops will continue to include serving prisoners, released to us on trust, who can underscore the impact that their behaviour has had on their lives. Our objective is :

- to work in partnership with statutory and voluntary agencies in delivering a clear, thought provoking, anti-crime message, tailoring our workshops to the needs of each group.
- to continue to drive down the number of young people who, without any intervention, might otherwise come into contact with the police, our courts and, inevitably, the prison system. There is a clear and identifiable need for our services.
- in the community, our objective is to inform and educate young people in schools with regard to laws surrounding youth crime, the consequences of a police caution and the impact of a criminal record and a prison term on their futures to enable them to understand the importance of education.
- give great emphasis to, and target more primary schools whilst at the same time providing our services to the secondary schools.

"THE NEW SCHOOL AT WESTHEATH PROJECT" - THE FUTURE

During the 2013-2014 school year, we were proud to introduce and take our services to New School at Westheath to be embedded into the school curriculum. At the time of writing, we delivered 27 sessions of 1-2-1 mentoring services to 4 students at Westheath including outreach home visits to provide continuous support to students on exclusions. This was incredibly successful in the 2013-2014 academic year and where necessary, we completed referrals to KCA for additional substance misuse support and The Prince's Trust's Fairbridge Programme for one of the 4 students whilst out of school on exclusion.

In the 2014-2015 school year, our objectives are to provide New School at Westheath with a unique service. The aim of the initiative will be to work with Health, Education, and Assessment & Revitalising Therapy in supporting the school with students with social, emotional and challenging behaviours.

We will offer the students:

- support around substance misuse, offending, drug dealing, personal development, relationship advice, STIs and STDs.
- 1-2-1 mentoring sessions and write session reports for each student we come into contact with and sharing information with Leadership Teams and teaching staff on various issues being aired and vented by the students.
- carrying out home visits to those temporary excluded from school.

"SEVENOAKS DISTRICT COMMUNITY SAFETY PARTNERSHIP PROJECT" - THE FUTURE

In December 2013, Sevenoaks District Council CSU awarded us funding to build capacity to reach more young people across the Sevenoaks District in partnership with the district community safety unit. We worked very closely with the Community Safety Unit to ensure that we reached some of the most needed areas and the most vulnerable young people, promoting the message that crime is not a viable career choice and that the consequences of their behaviour can have a life long impact. We delivered 5 school workshops in the district, delivered our community early intervention 8-week program at House in The Basement Youth Café and completed 11 home visits, reaching a total of 168 young people in Sevenoaks District within the 2013-2014 school year.

In July 2014, Sevenoaks District Council awarded us continuation funding of £2,000 for the 2014-2015 school year. In return, we will continue to deliver workshops to schools in the district, to run community early intervention programs and complete home visits, reaching a minimum of 200 young people in Sevenoaks District within the current financial year, producing a 'unit cost' of £10 per young person whom we reach. We also aim to target more primary schools and secondary schools in the district.

"GIRLS TIME...." - RELATIONSHIP, SEXUAL EXPLOITATION, STD/STI AWARENESS WORKSHOP - THE FUTURE

During the 2013-2014 school year, we received a number of requests from all-girls schools and some mixed-gender schools for a PSHE focus session on sex education. There has been growing concerns also in the East Malling area of Kent in regards to sexual exploitation in young girls and the need for the this module.

We launched and piloted this module in Carshalton High School for Girls on 15th July 2014 and also the Marsh Academy (mixed gender school) on 21st July 2014 in time for the 2014-2015 school year. We felt it was important to pilot in both mixed-gender school and all-girls schools to have a balance view from the young people.

Interestingly, albeit our intention of this module is to equip young girls with tools and educate them about relationships, sex, STI/STD, sexual exploitations, self-worth & identity, peer pressure, risk factors for girls, self-esteem, girls bullying etc, it is equally good for male students to sit in and hear the message since we hope it may help the boys treat and respect the girls better.

The student feedback received from the pilot launch was very positive and felt that the workshop made some considerable impact. Some of their comments were:

"This workshop was very useful and helped me get a better understanding"

- Carshalton High School for Girls

"I think it opened my eyes to how much respect girls don't have for themselves when boys are involved."

"Enjoyable"

- The Marsh Academy

"Not boring, very informative"

"Very good"

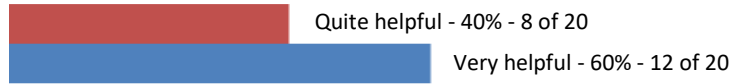

"Really good workshop, very interactive - really good introduction video."

From September 2014, we will offer this module to the secondary schools. The module will be delivered with prisoners from HMP East Sutton Park. This facility is provided by a unique arrangement with HMP East Sutton Park, an all female facility. With low self esteem and self worth being major factors in why so many young girls and women end up in prison, often through the actions of a male partner, having two serving female inmates who can describe, in graphic detail, how their lives have been almost been destroyed and are now being rebuilt in time for their release, has a major influence in the thought processes of all gender audiences in general and all female audiences in particular.

**"I DIDN'T KNOW THAT!" - ANTI-CRIME
SCHOOLS PROJECT 2013-2014 STAFF COMMENTS - 1**

"Both Francis and Fiona were an inspiration. The aim of the workshop was to teach A Level Law students about the aims of punishment and prison. At their age, too many of them focus primarily upon the punishment aspect and not the underlying need of rehabilitation. Subsequently lessons have indicated a shift in student attitude purely by meeting with Francis and Fiona. The aim of the workshop has been achieved"

- A Level Law Class Teacher at The North School

"Very good- children were very engaged and listened well. Asked lots of questions which were all answered. The workshop is a good idea and got the children thinking. Good resources to show children and make it more real life. It was great – thank you"

- Year 6 Teacher from West Borough Primary School

"The presentation was excellent – it was presented very clearly and gave a good insight. Informative questions and answers. The answers were thorough, explained well and detailed. He made a personal account that can be seen to be relatable to current society. Because it was a personal account, people relate more and find it encouraging to the correct route and decisions in life."

- Teacher from The New School at Westheath

"I think this workshop was very worthwhile. Francis gave an excellent presentation about his situation and how it still affects his life. I learned a lot and I know the children did too. What an eye-opener even for an oldie like me."

- Teacher from Edenbridge Primary School

"Another great workshop from Francis, that was well received by our pupils in Year 6."

- Teacher from Edenbridge Primary School

"Very powerful, realistic, brave, honest, balanced, sincere, relevant, not dramatized in a negative way. Clear outline of life consequences."

- Teacher from The New School at Westheath

"Very inspirational and informative"

- Teacher from The Malling School

"Very informative powerful workshop and well delivered. Students given a great platform to discuss real issues with Francis and Fiona. Students were treated with kindness and respect. Students have given very positive feedback and are trying to be more positive towards the school day. Francis was able to engage with students and keep them focused for the entire session."

- Staff at Furness School

"Students targeted can usually be chatty, disrespectful and competing for attention, yet they sat still and engaged with what Francis was saying. I felt the students used the time to reflect on themselves – which we so often don't have time to do. Such an important thing. Thank you"
